

Profile

A business-based practice founded in 1984, Sprecher Grier Halberstam LLP has established a reputation for providing commercially astute, fast and effective service to business clients. Each partner is a specialist in his or her particular commercial field.

A Range of Clients

Clients are principally in the business sector, ranging from companies with household names and international activities to smaller family firms and from financial institutions to professional practices.

Partner Involvement

Whereas the pyramid structure of many firms results in partners having very little involvement in their clients' matters, we have a structure that means each matter is dealt with by a partner or under his or her very close supervision.

Efficiency and Results

Our aim is to facilitate business for our clients while protecting their interests. We are very conscious of the fact that time is of the essence and endeavour to deal with all matters with the utmost pragmatism and efficiency.

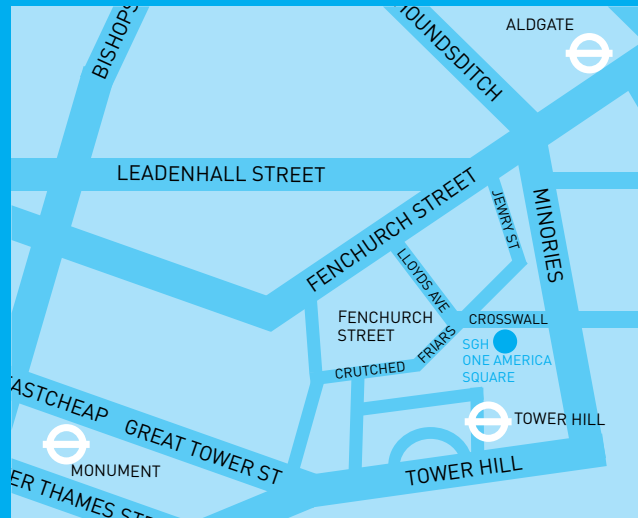

Cost

As a commercial service provider, we know our clients need to budget accurately. With this in mind, we endeavour to give fixed price quotations or accurate cost indications wherever possible.

Restructuring and Insolvency Group

Restructuring and Insolvency

Restructuring and Insolvency is a complex subject demanding technical knowledge as well as sound commercial judgement. It is a field in which Sprecher Grier Halberstam LLP has established a powerful reputation as one of the UK's leading specialist practices. Our team is focused on providing solutions for all stakeholders.

Sprecher Grier Halberstam LLP is fully committed to the rescue culture. We have considerable expertise in advising companies, partnerships and individuals in financial difficulties as to whether their business can be restructured or saved either inside or outside of formal insolvency procedures. We work closely in this regard with insolvency practitioners, accountants, turnaround professionals and financial institutions to achieve the best result and enhanced value for stakeholders.

Advice to Insolvency Practitioners

The firm advises and assists insolvency practitioners in their capacity as office-holders. Our insolvency group deals with all aspects of insolvency law and procedure across a wide range of business sectors, assisting with administrations, liquidations, receiverships and bankruptcies as well as voluntary arrangements for companies, partnerships and individuals. We act for insolvency practitioners providing corporate, property and employment advice. We are experienced in bringing claims against directors of insolvent companies or other third parties arising from antecedent transactions.

Conditional fees

We are often prepared to work on a conditional fee basis in order to assist office holders to pursue claims.

Cross Border

We have advised on a number of matters involving issues in other jurisdictions across Europe and the USA, including advice concerning the EC Regulation on Insolvency Proceedings and the UNCITRAL model law. We are a member of LEGUS, an international group of lawyers providing representation in most jurisdictions.

Services to Lenders

We assist lenders, including financial institutions, in reviewing and preparing security documentation, advising with regard to the potential insolvency of a borrower, and how to maximise recoveries.

Debt Collection

We have an experienced debt collection team to assist office holders and other clients to recover moneys due to them.

Directors' Responsibilities

We advise directors of their legal responsibilities resulting from insolvency. This includes advising Boards of directors prior to an insolvency process as to their duties and possible solutions.

We also help directors with applications to re-use prohibited company names.

Directors' Disqualification

We specialise in advising directors faced with disqualification proceedings, or inquiries under the Company Directors Disqualification Act 1986. This includes defending proceedings before the court, disposal by way of undertaking, and assisting directors in applying for leave to act as directors of companies following disqualification.

Professional Conduct

We assist office-holders who are faced with investigation or queries by their regulatory bodies and act on their behalf in disciplinary proceedings.

Online tracking

We have the ability to allow clients full access to their cases online. Demonstrations can be arranged.
